Gazette photo

Tammy Fisher of Charleston leaves the Capitol driving a "new used car" from Good News **Mountaineer Garage**. Allegheny Power retired 1995 Plymouth and Dodge autos from its fleet, and donated nine cars to Good News, which reconditions cars and gives them to low-income families who need transportation to work or work training. This was the first corporate donation that Good News **Mountaineer Garage** has received. Families who need cars are referred by the state Department of Health and Human Resources.
